ND f. Production and Services Contracts Branch, Procurement Division, recently requested an opinion from Logistics and Procurement Law Division, Office of General Counsel, with respect to evaluation criteria for requests for proposals (RFP). The primary issue concerned two outstanding RFP's which failed to employ past performance as an evaluation criteria.

25X1 The attorney's opinion points out that the primary
25X1 consideration in determining an award is which offeror can perform the contract in a manner most advantageous to the government. Past performance is one of the assessment factors relating to the overall responsibility of the contractor, and is cited as a mandatory consideration [redacted] Accordingly, both
